Devil's Got a Gun

Whitehorse

Look out, this thing is gonna blow
I heard it from the people in the know
There's trouble in the tenements below
There's fire where the flowers used to growI'm never goin' back
I'm runnin' from the sun
Bullets at my heels
The devil's got a gun
I'm never goin' home
I'll be the only one
With daylight on my tail
And heaven on the runRain is jumpin' up into the clouds
The girl has ceased to make her father proud
Lovers wrapped up in cellophane
The bitter fruit has fallen from it's preyI'm never goin' back
I'm runnin' from the sun
Bullets at my heels
The devil's got a gun
I'm never goin' home
I'll be the only one
With daylight on my tail
And heaven on the runHelp me I know not what I see
I'm a stranger to the face lookin' back at me
When the company of sisters is just like any mystery to me
Hold me I know not who I am
If I'm a woman, you're a creature not a man
The eyes of a lover, they look like any others to meI'm never goin' back
I'm never goin' back
I'm never goin' back
I'm never goin' back
I'm never goin' back
I'm never goin' backIt's down to the second hand
When tick tock is more than you can stand
The grinders and the wheels they never sleep
We're fighting to the bottom of the deepI'm never goin' back
I'm runnin' from the sun
Bullets at my heels
The devil's got a gun
I'm never goin' home
I'll be the only one

With daylight on my tail
And heaven on the runI'm never goin' back
I'm runnin' from the sun
Bullets at my heels
The devil's got a gun
I'm never goin' home
I'll be the only one
With daylight on my tail
And heaven on the run
Daylight on my tail
And heaven on the run
I'm never goin' back
I'm never goin' back
I'm never goin' back
I'm never goin' back
I'm never goin' back
