In Harms Way (Live At the Basement)

The Superjesus

And I know that you'll be right
When I need it
And I know that you'll be rightThere are things that I will fight
When you don't want to
Inbetween it seems we stand
Was it wrong or right
I'll stay, I'm chained, but I'm bullet proofAnd I know that you'll be right
When I need it
And I know that you'll be right
When I need I can't walk where you do
When there's nothing holding you
I can see we're in the way of harm again
The way of harm againThere's a crack outside my door
That I've fallen into
Was it right to hold it in
I don't want toI can't walk where you do
When there's nothing holding you
I can see we're in the way of harm again
The way of harm again
The way of harm againI could be lonely...
