Don't Hide

Grim Skunk

Adolf Hitler was my hero
Mussolini was my fave
I killed for one man's fascist craving
But now my bones rot inside their grave
Don't hide! 1-2-3-4...
Everyone's got problems that nobody can solve
Maybe if you use your brain they would be resolved
You walk around all by yourself be with your own friends
Zombies, ghasts, ghouls and ghosts are showing you your own ends
Don't hide behind your tombstone
Don't hide behind your grave
Don't hide behind your tombstone
When you're gone it's your blood they save
Do you think you'll find solutions
If you run away
Put your faith in murderers
Who smile as they slay
The disguise that evil wears
Can become so many parts
Can't you see they laugh at you
Within their blackened hearts
(2x)
Don't hide behind your tombstone
Don't hide behind your death
Don't hide behind your tombstone
I hear them laughing as you draw your last breath
