

# You Can Depend on Me

[Brenda Lee](#)

Though you say, "We're through"  
I'll always love you  
And you can depend on me Though someone that you've met  
Has made you forget  
Honey you know, you can count on me When I wish, I wish you success  
And loads, loads of happiness  
But baby, I gotta confess, I'll be lonely If you ever, if you ever need a friend  
I'll be yours until the end  
And you can depend on me I wish you success and loads of happiness  
But darling, I gotta confess  
I'm gonna be lonely Oh if you ever, if you ever need a friend  
I'll be right by your side until the end  
And you can depend on me  
You can depend on me
