

# Apnoea

## Kasabian

Pick demons up set demons free  
Issue my fire on the weakened liar  
Last [Incomprehensible] in town, set to burn it down  
I summoned you to the aftermath

Apnoea

Oh, bearing down on me

Apnoea

Oh, bearing down on me

Apnoea

Oh, bearing down on me

Apnoea

Oh, bearing down on me

Apnoea

Oh, bearing down on me

Apnoea

Oh, bearing down on me

Put your boots in man, put your boots in girl

See the piggies fly, see the system fail

Said it isn't me, said it isn't you

Change made by all and not by one

Apnoea

Apnoea

Oh, can't you see it girl?

Apnoea

[Incomprehensible]Apnoea

Oh, can't you see it girl?
