

Thank You Friends (Demo)

Big Star

Thank you, friends
Wouldn't be here if it wasn't for you
I'm so grateful
For all the things you helped me do All the ladies and gentlemen
Who made this all so probable Thank you, friends
I rejoice to the skies
Dear ones like you do the best I do
As far as can see my eyes All the ladies and gentlemen
Who made this all so probable Without my friends I got chaos
I'm often a bead of light
Without my friends
I'd be swept up high by the wind All the ladies and gentlemen
(I said all)
All the ladies and gentlemen
(I said all)
I said, all the ladies and gentlemen
Who made this all so probable Thank you friends
(Thank you again)
Thank you friends
(Thank you again) Dear, dear, friends
(I wanna thank you again)
Thank you friends
(I said, thank you again) I said, thank you again
I wanna thank you again
Never too late to start
