

# Dreamland

## Dreamtale

Come with me, my friend  
You'll see a place beyond reality  
Fly into the night with me  
Together through eternityEarth, they call this place they live  
Look the mountains, oceans so deep  
Hatred, fear, intolerance  
Peace will never have a chanceSchool, too hard for man to learn  
Were those lessons from the past  
Time will show 'em answers true  
One day they will learn toFly with me toward the morning light  
You will see what lies beyond the night  
Place so real, where is no fear  
No need to shed any tearsFly with me toward the morning light  
You will see what lies beyond the night  
Place so real, where is no fear  
No need to shed any tearsFly with me toward the morning light  
You will see what lies beyond the night  
Place so real, where is no fear  
No need to shed any tears
