

# Live Together

Liz McComb

This is all we need, to be free  
To understand, and find the answer  
So let's do it now, let's do it right now We've got to live together, if we're gonna be free  
We've got to find the answer, right now  
We've got to live together  
We've got to see each other, for whatever we are  
We've got to solve the problem, together  
We've got to live together Take a look at me, I'm the honest kind  
When I say it I mean it, I swear I need you, all my life  
All we need is sympathy, if we want to change our minds  
This is no second thought, this is for all times, all my life This has got to be forever  
Whatever, whatever's come, whatever's been  
It's livin' life for what we see, promise not to lose our hope We've got to live together, if we're gonna be free  
We've got to find the answer, right now  
We've got to live together, we've got to live together You don't need no reason to hold your head up high  
A little pride so you can justify your whole life  
This has got to be forever  
Whatever, whatever's come, whatever's been  
Livin' life for what we see  
Promise not to lose our hope We've got to live together, if we're gonna be free  
We've got to find the answer, right now  
We've got to live together  
We've got to see each other, for whatever we are  
We've got to solve the problem, right now  
We've got to live together, live together We're gonna give it all that we got  
We'll believe it whether or not  
Lovin' ourself and loving our hearts  
Love is seein' all that we are  
We're gonna do it, do it right now  
Love is there, it's showin' us how  
We can do it, we can live together Just take a look at me, I'm the honest kind  
When I say it I mean it, I swear I need you all my life  
All we need is sympathy, if we want to change our minds  
This is no second thought, this is for all times, all my life When this has got to be forever  
Whatever, whatever's come, whatever's been  
Livin' life for what we see  
Promise not to lose our hope We've got to live together, if we're gonna be free  
We've got to find the answer, right now  
We've got to live together

We've got to see each other, for whatever we are  
We've got to solve the problem, together  
We've got to live together We're gonna give it all that we got  
We'll believe it whether or not  
Lovin' ourself and loving our hearts  
Love is seein' all that we are  
We're gonna do it, do it right now  
Love is there, it's showin' us how  
We can do it, we can live together We're gonna give it all that we got  
We'll believe it whether or not  
Lovin' ourself and loving our hearts  
Love is seein' all that we are  
We're gonna do it, do it right now  
Love is there, it's showin' us how  
We can do it, we can live together
