It's True

Lene Marlin

I wish I could,
Sit here all alone
Thinking this is okay
Don't need anybody tonight,
Just complete silence and the candle light
And I'd drink my coffee,
Wouldn't worry at all... wouldn't worry at all
I would feel fine
Like I always do
I would be smiling
Laughing too
Don't need anybody,
Least of all you
And then I would convince myself it's true
It's true

I wish I could,
Stare at the wall
And see something different everytime
Everytime
The candle wouldn't stop burning
I could lay down,
And I wouldn't be crying
I would feel fine
Like I always do
I would be smiling
Laughing too
Don't need anybody,
Least of all you
And then I would convince myself it's true
It's true
