Weapon

Dunson

Here by my side; an angel,
here by my side; the devil.
never turn your back on me,
never turn your back on me, again.
here by my side, it's heaven.
Here by my side, you are, destruction.
here by my side, a new color to paint the world
never turn your back on it,
never turn your back on it, again.
here by my side, its heaven.
Be careful,
be careful,
be careful,
be careful.
this is where the world drops off,
this is where the world drops off.
be careful,

be careful.
And you breathe in,
and you breathe out, for it.
ain't it so weird,
how it makes you a weapon.
and you give in,
and you give out, for it.
ain't it so weird,
how it makes you a weapon.
never turn your back on it,
never turn your back on it,
again...
Be careful,
be careful.
Here by my side, its heaven,
here by my side, its heaven.
here by my side...
