

# Something Something

[Arn.ioe](#)

I want to be with you  
Would do anything  
Within reason for you  
But if you don't feel  
The way I feel about you  
I'll just let my heart break

You have no soul  
It's a love letter  
Cause they're playing  
On your heart strings  
You're wishing  
I would be well  
Cause your heartbeat  
Sets the song feel

(x2)

I don't need you  
I just want you  
I want you  
When you'll hear this  
You'll know I'm?  
You'll know

You have no soul  
It's a love letter  
Cause they're playing  
On your heart strings  
You're wishing  
I would be well  
Cause your heartbeat  
Sets the song feel

(x2)

I don't need you  
I just want you  
I want you  
When you'll hear this  
You'll know I'm?  
You'll know
