

Now I fall

Wolfsheim

Sometimes I can't fall asleep
You lie beside me and I weep
Dancing shadow on the wall
Once you caught me, now I fall Sometimes I feel love and trust
Turn to anger and disgust
Crawling darkness in between
No light in reach, no silver sheen Sometimes I feel so ashamed
To be mercilessly framed
Idle hands and eyes that stare
But no escape that I would dare Love and trust Pain increasing every day
No truth left I won't betray
One day our way leads to an end
Why do I cry? I understand That it's too late for me to go
I should have left you years ago
Beyond this point of no return
