

Boys Peel Out

Mercury Rev

Brains on your head, shoes on your feet
Why still live from week to week and cheek to cheek
Waitin' for the phone to blink, waitin' for the phone to blink
Waitin' for the blow to snow, skating around
The only place you know, prayin' for your hair to grow
Now your mama say, back before the war
Everything was sugar free, everything was sugar free
A girl's heart was filled with stars
And the boys peeled out in muscle cars
Back before the war, the boys peeled out
In muscle cars before the war
Everything was sugar free, everything was sugar free
A girl's heart was filled with stars, yeah
Three months, back before the war
Everything was sugar free, everything was sugar free
A girl's heart was filled with stars
And the boys peeled out in muscle cars
Ya got brains on your head and shoes on your feet
Why still living from week to week and cheek to cheek
Waitin' around, waitin' around for the phone to blink
Waitin' around
Brains on your head, shoes on your feet
Brains on your head, shoes on your feet
Brains on your head, shoes on your feet
Why still living from week to week
