Your Hero

Dylan Hennessy

Human race seems so amused
By the news of everyday
We got to forget the paralyzed
there's no reaction
we got used to being surrended by disasters
but it's time to face the truth
Now it's time to make ammends
your hero can save me
cause we don't like the happy ending movies
your hero ooh
Only tragedy is around
Name these countries we consider far from home
but they're nearest than we know
now we gotta make ammends
just because
Your hero

can save me
cause we don't like the happy ending movies
Your hero (your hero)
Can save the world
From all the times we crossed the lines
and made the same mistakes
your hero
Your hero (your hero)
Can save me (can save me)
cause we don't like the happy ending movies
Your Hero (your hero)
Can save the world
From all the times we crossed the lines
and made the same mistakes
your hero
uuuu
your hero.
