

# Remember

Greg Kihn

Silver bird takes off in the night  
Another's comin' in  
In any window a light  
As every night begins

One thing stays on my mind  
As I look back over time  
I guess it just couldn't last  
I feel it's fadin' fast

Do you - remember?  
Do you - surrender?  
Do you - (whoa) remember how it feels?

If it all comes back on me  
I won't run and hide  
'Cus sometimes all you got left  
Is your empty pride

But nothing, nothing  
Will ever be the same  
Some of the best things fade  
Some of the worst remain

But I can't turn back the tide  
Or show you somethin' inside  
Or help you out when you fall  
If I can help you at all

Do you - remember?  
Do you - surrender?  
Do you - (whoa) remember how it feels?

Do you - remember?  
Do you - surrender?  
Do you - (whoa) remember how it feels?
