

# Till The Morning

## Bahamas

We 'bout to take y'all way back  
Til the  
(Morning, can you touch me, can you help me?)  
Til the  
(Morning, to the sweet stuff, let me heat up)  
Make me lose my mind, lose track of time  
But I gotta work  
(Morning, can you touch me, can you help me?)  
You keep sending messages you wanting me  
But instant messages don't be as cold  
If you wanna get me, put your energy  
You should try it in my hand not on the phone  
I'm sensitive when you come close  
Boy, come on 'cause I'm getting low  
I love it when you do that soul  
Turn it up that turns me on  
Til the  
(Morning, can you touch me, can you help me?)  
Til the  
(Morning, to the sweet stuff, let me heat up)  
Make me lose my mind, lose track of time  
But I gotta work  
(Morning, can you touch me, can you help me?)  
I can see you know most wrapped up in the sheet  
You got me going crazy, screaming more  
If you wanna get me like you want me to be  
Then you gotta stop me from dancing on the floor  
I'm sensitive when you come close  
Boy, come on 'cause I'm getting low  
I love it when you do that soul  
Turn it up that turns me on  
Til the  
(Morning, can you touch me, can you help me?)  
Til the  
(Morning, to the sweet stuff, let me heat up)  
Make me lose my mind, lose track of time  
But I gotta work  
(Morning, can you touch me, can you help me?)  
Okay, we gonna take you to the rooftop, c'mon

Touch me, hold me, kiss me closely  
Teach me, show me, enjoy me  
Touch me, hold me, kiss me closely  
Teach me, show me, enjoy me  
Now did you like it?  
How did you feel?  
Was it good to ya?  
Can you give a little more?  
But relax now, baby  
Let me ease your mind  
Let me get it together  
And I'll be ready to go  
(Hey, baby)  
I'm sensitive when you come close  
(So sensitive)  
Boy, come on 'cause I'm getting low  
I love it when you do that soul  
(I love it, baby)  
Turn it up that turns me on  
(Turn me on)  
Til the  
(Morning, can you touch me, can you help me?)  
Til the  
(Morning, to the sweet stuff, let me heat up)  
Make me lose my mind, lose track of time  
But I gotta work  
(Morning, can you touch me, can you help me?)  
Touch me, hold me, kiss me closely  
Teach me, show me, enjoy me  
Touch me, hold me, kiss me closely  
Teach me, show me, enjoy me  
Touch me, hold me, kiss me closely  
Teach me, show me, enjoy me  
Touch me, hold me, kiss me closely  
Teach me, show me, enjoy me
