# Me

## The 1975

I got a plane in the middle of the night
Don't you mind
I nearly killed somebody
Don't you mind, don't you mind
I gave you something you could never give back
Don't you mind
You see my face like a heart attack
Don't you mind, don't you mind
I was late but I arrived
I'm sorry but I'd rather be getting high than watching my family die
Exaggerate you and I
I think I did something terrible to your body
Don't you mind
I put your mother through hell
Don't you mind
I hurt your brother as well
Don't you mind, don't you mind
I was thinking about killing myself
Don't you mind
I love you
Don't you mind, don't you mindI put your mother through hell
Don't you mind
I hurt your brother as well
Don't you mind, don't you mind
I was thinking about killing myself
Don't you mind
I love you
Don't you mind, don't you mind
