Heal Me

Boyzone

Heal me..Steal me..Feel Me..Heal Me And it feels like you lost the fight When things don't turn out right Friend you can look my way When things don't work out quite the way Oh..let's start thinking with our hearts Then this world, can make a new start..start Why won't you..heal me (I believe, I believe, I believe) Into the night..feel me Love won't you..steal me Heal me If there's been a change of plans Someone to let go of your hand When things ain't looking quite the way You've got a place to stay Oh..let's start thinking with our hearts Then this world, can make a new start..start [CHORUS] And there ain't no reason for us to lose our faith in this world If only us people on eath can just change the love will unfurl, Unfurl..funny innit? [CHORUS] If they stole your rights When skies don't look bright My friend don't lose sight And you're lost in the night When you just cannot fight no more That's when I need you to call me That's when I need you That's when I really need you
