Hangman

Rev Theory

Take your places please
You'll need to sit for this one
It's a simple plan
With a mangled conclusion
Give us a minute alone
You're gonna follow me down
Hangman, you wanna follow me
How long, into the bottom we're
Headstrong, drink from the bottle
Until this city tears us both apart
Hangman, hang
Numb your senses please
You won't remember for too long
Sound the hell alarm
And commence the corruption
Give us a minute alone
You're gonna follow me down
Hangman, you wanna follow me
How long, into the bottom we're
Headstrong, drink from the bottle
Until this city tears us both apart
Hangman, you wanna follow me
Hang on, into the bottom we're
Headstrong, drink from the bottle
Until this city tears us both apart
Hangman, hang
Hangman, hang
You're gonna follow me
You're gonna follow me down
You're gonna follow me
You're gonna follow me down
You're gonna follow me
You're gonna follow me down
You're gonna follow me
You're gonna follow me down
Give us a minute alone
You're gonna follow me down
Hangman, you wanna follow me
How long, into the bottom we're

Headstrong, drink from the bottle
Until this city tears us both apart
Hangman, you wanna follow me
Hang on, into the bottom we're
Headstrong, drink from the bottle
Until this city tears us both apart
Hangman, hang
Hangman, hang
