

What's This World Comin' To

Chicago

Why can't folks get along with one another?
It was Jesus said, "You got to love your brother"
No one seems to notice all the evil in the air
No one seems to really give a damn if it is there Oh, what's this world comin' to?
Hope for love, come on through, come on through
I said, I said said, people finally get themselves together
Makin' life, ooh, a whole lot better, yeah, yeah Some folks got a lot, and some are hungry
Well I said some folks got to live from day to day
Rich folks spend their time just countin' money
Poor folks really ain't got much to say, ain't got much to say What's this world comin' to?
Hope for love, come on through, come on through
I said now people finally get it together
Makin' life, a whole lot better, yeah, yeah What's this world comin' to?
What's this world comin' to?
What's this world comin' to?
What's this world comin' to?
What's this world comin' to?
What's this world comin' to? Oh people got to get their things together
Ain't no time to lose just time to die
All of us can make this world a better place to be
All of us can feel how good it feels to be free Woah, what's this world comin' to? Yeah
Hope for love, come on through, me and you
People got to get it together
Makin' life better, whole lot better
