

In the Ashes

Late Night Alumni

You've come along, you're underneath the song
First on the plane, now on the beach
Thought I was alone, I left without my phone
Somehow you've stowed away with me When the earth shakes swallowed by the waves
You'll be swimming next to me
When the plane crashes you'll be in the ashes
And I'll breathe you into me The weather's fine, what I had in mind
Until I feel you like a breeze
You kept afloat when I escaped by boat
Thoughts of you come swimmin' across the sea When the earth shakes swallowed by the waves
You'll be swimming next to me
When the plane crashes you'll be in the ashes
And I'll breathe you into me
