

Mark Watrous - Long Road

Garry Schyman

It's been such a long road.
It might seem that there is nothing more to say.
We've gathered all our evidence.
and we've analyzed it every single way
i'd might like to take back
All those - loaded words that i have said
Misinterpretations
as they topple from my sick and sagging head

It's been such a long ride- i'm not sure we know in which direct to go
We've taken in this long stride and it is oh so slow but there's a lot of package to tow
This long road is dragging me - from equality i'm certain that i had
They cut through my abilities - and delivered me whatever strength i asked
It's been such a long ride - i'm not sure we know in which direct to go
We've taken in this long stride and it is oh so slow and there's a lot of package to tow
it's a long long road~
it's a long long road~

~~(Music)~~

It's been such a long ride i'm not sure we know in which direct to go
We've taken in this long stride and it is oh so slow and there's a lot of package to tow
Well it's a long long road~
ya it's a long long road~
it's long long road~
it's long long road~

~~(Music)~~
