Jaw

More Than Conquerors

Well i look at what i have found in this simple place,
searching a round and round for a better way,
come across something i left behind long ago,
finally relized what i left behind is what im looking for...
why is it nothing seems right,
my minds not all up tonight,
its happening again..
Trying it all again, how can i go wrong
trying to play the game, but its been so long,
i guess ill never know what she sees in me,

and now she relizes, that im not the same person i used to be.
and why is it nothing seems right,
my minds not all up tonight,
its happening again.....
why is it nothing seems right,
my minds not all up tonight,
its happening again..... again.....
