

Take It Slow

John Curtis Anderson

V1 I met you on the Railroad
I was only twenty one
I was on my own Away from home
My life had just begun
Driftin out on the highway
We had bluegrass in our blood
But the suns so strong & our love went wrong
And I think I have to restChorus Just take it slow
Slow & easy goes hand in hand
Just take it slow
Ill be back when he goesV2 Found a place on the border
It was seventeen miles to town
I heard you moved to Ohio
& were happy and settled down
But I cannot leave tomorrow
Till I work here one more day
Itll only bring me sorrow
But you know I think I mayRepeat ChorusInstrumental InterludeV3 Well I guess I must be crazy
But I think I may be wise
To stay in Arizona
& look up on cloudless skies
Let it drift let it float on by
I hope you found your home
Drop a card or a note in case youre ever broke
& I know I am aloneRepeat Chorus Twice & End
