

# Still

## Longview

Signs reading so bold and clear  
So bold and clear  
Warning signs appearin' here  
Is it near? And I still want it  
And I'm still on it  
And I still want it  
And I still want itBells ringin' so loud in here  
So loud and clear  
Uncertain times are near  
And I fearAnd I still want it  
And I'm still on it  
And I still want it  
And I still want it  
And I still want itYou and I collapsed and died  
A thousand times already  
You and I collapsed and died  
But never stopped and noticedGood times are coming  
Good times are coming  
Good times are coming  
Good times are comingStill want it  
(Good times are coming)  
And I'm still on it  
(Good times are coming)  
And I still want it  
(Good times are coming)  
And I still want it  
(Good times are coming)
