

# I Remember

## Wet Wet Wet

I should have known better  
I should have known better How I long for those warm summer nights  
Of playing the fool and getting uptight  
Crush my precious wish to the ground  
You have a sunshine taste for forgive and forget I remember having all the love to give  
I remember a precious kiss upon my loving lips  
For you've touched my mind, my soul and my everything  
Oh, I remember having all the love to give  
I remember a precious kiss upon my loving lips  
Please, oh please help me Looking back at what we had  
Say I still want you so much  
I was loving you for just one reason  
Loving you for just one season  
Means you're required for desire I remember having all the love to give  
I remember a precious kiss upon my loving lips  
And you've touched my mind, my soul and my everything  
I remember having all the love to give  
I remember a precious kiss upon my loving lips  
Please, oh please help me I remember, oh, I remember  
Loving you, loving you, loving you  
Loving you, loving you, loving you  
Please, please help me I remember having all the love to give  
I remember a precious kiss upon my loving lips  
I remember having all the love to give  
Please, oh please help me Please, oh please help me  
Please, oh please help me  
And I try, and I try, and I try to act naturally
