

# What Game Shall We Play Today

Chick Corea & Gary Burton

Look around you my people  
If you look then you will see  
How to love, life is paradise all together  
What game shall we play today? Man just wants to be happy  
Cast off things that shouldn't be  
Set him free, life is paradise all together  
What game shall we play today? There's a way you can find it  
It's within you, can't you see  
Find the truth, it's not impossible all together  
What game shall we play today?  
Here we are all together  
Free to have and do and be  
What we see, for the first time all together  
What game shall we play today?
