

# The Secret

## Pennywise

Advisory - the following lyrics contain explicit language:

Listen children, I've got a secret  
One that they don't want me to tell  
I hope you register this little message  
It's the only way you can stay outta hell  
Don't ask your parents they ain't gonna tell you  
'Cause they've already taken the fall  
I thank your lucky stars for the enlightenment  
'Cause now it ain't no secret at all  
We're gonna die off in time  
We're only gonna die off in time  
We're all gonna die before our time  
Until we stop succumbing to mankind  
Die off in time  
We're only gonna die off in time  
We're all gonna die before our time  
Until we stop succumbing to mankind  
Don't get me wrong, I don't want to soil your future  
It used to be so squeaky clean  
It ain't my fetish to extend this pessimism  
Or blow rain clouds over your scene  
I got the notion, I got the feeling  
That this thing doesn't have to end  
This better up your suspicion  
'Cause now there's only one result my friend  
We're gonna die off in time  
We're only gonna die off in time  
We're all gonna die before our time  
Until we stop succumbing to mankind  
Die off in time  
We're only gonna die off in time  
We're all gonna die before our time  
Until we stop succumbing to mankind  
Hey, mom and dad please don't hate me  
Just 'cause in me you see your lost youth  
Do I evolve into an adult organism?  
Do I blow myself away? Tell me the truth  
Good intentions, yeah, I got 'em  
Plan for the future or pray for the end  
And this had better raise up your suspicion  
'Cause there's only one result my friend  
We're gonna die off in time  
We're only gonna die off in time

We're all gonna die before our time  
Until we stop succumbing to mankind  
Die off in time  
We're only gonna die off in time  
We're all gonna die before our time  
Until we stop succumbing to man  
Die off, die off, die off  
We're all gonna die before our time  
Die off, die off, die off  
We're all gonna die before our time
