

# Just A Friend

Jasmine Villegas

Uh, what up? (yeah, yeah, yeah)  
New Jasmine V baby!  
and we onnnnn. (yeah, yeah, yeah)[Verse 1]  
Say what you want, do what you like  
But we both know the truth  
Can't change the facts of you and I  
But you still do what you doKeep tellin them stories, to her and your homies  
but that wouldn't make any sense  
Yeah, Uh![Chorus]  
If I'm just a friend, if I'm just a friend  
Then why do I know what your lips feel like?  
If I'm just a friend, if I'm just a friend  
Then my camera must be tellin lies.  
If I'm just a friend, then you must just be crazy baby.  
If I'm just a friend, then you must just be crazy baby.[Verse 2]  
Every night, lit up my life  
Texting my phone non-stop  
Wherever I go, that's where you are  
Never apart too longKeep tellin them stories, to her and your homies  
but that wouldn't make any sense  
Yeahhhh.[Repeat Chorus]  
If I'm just a friend, if I'm just a friend  
Then why do I know what your lips feel like?  
If I'm just a friend, if I'm just a friend  
Then my camera must be tellin lies.  
If I'm just a friend, then you must just be crazy baby.  
If I'm just a friend, then you must just be crazy baby.[Bridge]  
You act like I don't meet your standards,  
I'm not good enough to stand beside you, beside you.  
I wish the best of luck to your girlfriend,  
probably been lying all about her too, about her too.[Repeat Chorus]  
If I'm just a friend, if I'm just a friend  
Then why do I know what your lips feel like?  
If I'm just a friend, if I'm just a friend  
Then my camera must be tellin lies.  
If I'm just a friend, (I'm just a friend) then you must just be crazy baby.  
If I'm just a friend, then you must just be crazy baby.If I'm just a friend, if I'm just a friend  
Then why do I know what your lips feel like?  
If I'm just a friend, if I'm just a friend

Then my camera must be tellin lies.

If I'm just a friend, then you must just be crazy baby.

If I'm just a friend, then you must just be crazy baby.(Yeah, Yeah, Yeah)

(Yeah, Yeah, Yeah)

(Yeah, Yeah, Yeah)
