Straight from the start
You grew me up from I was a baby
Straight from my heart
Mamma I love you dear

Oh mamma I've been searchin' for the right word to say to you for so long
To display to you di strong bond, the emotion all connection we got
For the love that you gave year to year, before I was born up to the time I were there
Tru the struggle mamma don't despair, when poppa never dehdeh maybe he was scared
But you never feared, always prepared to share two young sons now just look it a best
Give thank for all your blood, sweat and tears, oh mamma I will always be there
Appreciate the windsom you share, oh mamma don't worry
Yow, cau the truth is mamma never left us no time
That's the truth, all the truth, spiel the truth, a the truth
All due times arrived she never left us behind
That's the truth, feel the truth, share the truth, the real truth
So anyway Jah take wi down life avenues
