Hood Buzzin'

Kevin Michael

Theyre mad, they wish they had the love we have
Were booking flights and dont even take bags
We did em dirty last summer
Rover Sports, Jet-Skis attachedThey hatin us in matchin furs
Gold name plates, his and hers
See at first they said it wouldnt work
But we got the whole hood buzzin' nowThey said itd never happen
But we knew it would happen back then
We stayed down through the fire, we stayed down to the wire
We came up, now the whole hoods buzzin'Number one gold chick hater
Number one chick, number one motivator
You aint gotta wish it, if you want it you can get it
But we got the whole hood buzzin' nowJump, bet you aint never saw this one coming
The whole hoods buzzin' now and I like it
They know that youre my girl, girl, gonna hold you down, yeah
People talk but they aint saying nothing
Girl, we got the whole hood buzzin' nowGet your hair done every week, French tips, my treat
Only the best for you my sweet
Gold stunnas by Chanel, they match the bag
They know whats upThat aint the ride
Five star, drinking good wine
We make em point and whisper every time
Now we got the whole hood buzzin' nowThey said itd never happen
But we knew it would happen back then
Down though the fire, down to the wire
We came up, now the whole hoods buzzin'Number one gold check hater
Number one chick, number one motivator
You aint gotta wish it, if you want it you can get it
But we got the whole hood buzzin' nowJump, bet you ain't never saw this one coming
The whole hoods buzzin now and I like it
They know that youre my girl, girl, gonna hold you down, yeah
People talk but they aint saying nothing
Girl, we got the whole hood buzzin' nowDont feel bad at all
When you hear them haters call
Baby, we deserve to ball
Just brush them off and
Keep the whole hood buzzin'Call us what they may
Theres a real turn been made
Some things never change

But we got the whole hood buzzin' nowJump, bet you aint never saw this one coming
The whole hoods buzzin now and I like it
They know that youre my girl, girl, gonna hold you down, yeah
People talk but they aint saying nothing
But we got the whole hood buzzin' now
