

# Awaken (Remixed & Remastered)

## Novembers Doom

Stripped of life, alone  
In the midst of something that I Want to play with your evil insidewanting, letting go, of what never could be  
again  
Lost and alone  
Imprisoned now inside your mind  
With the way you tried  
To destroy me again  
You were waiting and living for no one  
With the way you tried  
To completely refuse all your life Feed on nothing  
You'll never live up to me  
Awaken you  
With a little evil inside  
Feed on your nothing  
You'll never live up to me  
I've stricken you  
Feed on your nothing  
And you'll never live up to me  
There isn't a thing that I can do  
Watching the whole thing just wash away  
Making me long  
Making you strong  
Awaken you  
With a little evil inside  
Feed on your nothing  
You'll never live up to me  
I've stricken you  
Feed on your nothing  
And you'll never live up to me
