

What You See Is What You Get

Meat Loaf

Man:
Ain't no hidden treasure
In this pot of gold you see
Ain't no way for you to make
No silky purse out of me Woman:
Well I'm never ever gonna change your way
I dig you as you are
And you've got something that I want
And that's worth waiting for Chorus (together):
What you see is what you get
And you ain't seen nothing yet
What you see is what you get
And you ain't seen nothing yet Man:
I told you that I loved you
Right from the very start
Now don't you make me sorry girl
That I opened up my heart Woman:
Well I know that I'm no angel
This ain't my first time out
But you can count on what I got
Cause what I got's a lot don't you know Chorus (together) Man (spoken): Woman:
When it's cold I want it hot
I've always wanted what is not
But when it comes to loving you
I'm yours no matter what you do Man:
Oh you're my baby, and I'm your man
This is mother natures plan Woman:
Can't you see, it's a fact
Loving you is where it's at What you see is what you get
And you ain't seen nothing yet
(repeats)
