

Moshi Moshi

Brand New

I think I'm crazy baby
Let you off the hook to easy
If you were a telephone
You'd still be off the hook
This is my last leg
Been awake for days
In a minute, I'll die of starvation
I'll come back a ghost
If I can haunt you
And float around your room
What'll I do when you get close
If I kissed your neck, would you slit my throat? And are you thinking of me?
When you're putting on your makeup, darlin'
Dyin' your hair like you do
Well your wastin' your time
If you're trying to impress me
I waste all my time just thinking of you And I'm not imagining
How you give me the shivers
Standing up to your waste in your river
You're the sweetest boat-builder
I think I've ever seen
Dream in Japanese, dream in Japanese
Some language I don't even know how to speak
You're still pretty and I'm still choked up
It's probably just the same
The more I hang around you
The more hang-ups I get
(The more hang-ups I get!) Are you thinking of me?
When you're putting on your makeup, darlin'
Dyin' your hair like you do (Your dyin' your hair like you do!)
Well your wastin' your time
If your trying to impress me
I waste all my time just thinking of you
