There's Only You

Kevin Sharp

In every life they say
One perfect love comes your way
I know from my heart that's true
There's only youWhen sorrow brings me pain
If teardrops fall like rain
Who else can I turn to?
There's only youEvery night I thank the Lord above
For giving you to me
All my life I'll give you all my love
True and faithfullySo darling, say you'll stay
Don't take your love away
I'll never find some, oh, someone new
There's only you
