

Southside

Scarface

I spit my day right off a holiday broke and disgusted
With out enough money to buy food but I'm smoking so fuck it
Hit the school yard I would hard because I am larger then life
Close smoky eyes shining cause I am high as a kite fuck it High school teachers I am a man of respect
South acres baby gangstas the man of respect
Fuck the school vice principal he shieved I'm leaving
Told my momma about my dope case and my momma believed him Now my daddy got a problem with my
education
So shy where the fuck mine let him know what they facin'
Got the doctors who studied this but niggaz would doubt it
Probably take shrink at night time then you out of it I see the same thing flash change violent
And mother fuckers caught in that chain remain silent
So why you figure I've be standing here shaking
Because the devils is close to taking me but I can't face him My soul is controlled by the blessings of God
Still scared to walk the first ground because the devil is in charge
Somebody help the Lord soul find Saviour
'Cause I'm standing on the corner with a tech nine for the hole behavior They want to take me out the game like
rider
But you youngsters better stop and peep game because my game wider
I send this out to those who thought that they cook
Cold as fuck when it came to the game and my game done Southside, south south side
Southside, south south side
Southside, south south side
Southside, south south side
You know what I am saying
