Down in the green valley that I love so we'll. All through the green pastures with Jesus I'll dwell,
Beside the still waters my Lord Leadeth Me. Down in the Green valley he watches his sheep.

I was lost and in the wilderness and I could not find my way.

I had drifted from the others a lost sheep gone astray.

The Shepard knew I was missing for my face he didn't see and he left the ninety nine and came searching for
me.

Alone and weary insofar off trouble land crying out for mercy holding up a febrile hand. knowing I was done
forever till Shepard heard my plea.

When he left the ninety nine and came searching for me.

He lifted me from darkness, a shelter from all harm.

At last I knew I was back safely in my Shepard's arms.

When my trials here are over and my journey is complete and I'm safely home with Jesus back in my Shepard's
keep I will praise him forever throughout eternity for leaving the ninety nine and come searching for me.

Down in the green valley that I love So we'll. All through the green pastures with Jesus I'll dwell, Beside the
still waters my Lord Leadeth Me. Down in the Green valley he watches his sheep.
