Hollow Man

Rev Theory

I could walk all night
And never find what's right
Searching for some peace
To fill the void in me, yeah, yeah
So was it hard for you to go?
Did I fail to let you know
That you are the one I needed most?
Was is it hard for you to leave
Without a care for me?
It takes sometime to embrace the cold
Until then I'm just a hollow man
A steel frame in my mind
Has faded black and white
All that's left to say
Fifteen years too late
So was it hard for you to go?
Did I fail to let you know
That you are the one I needed most?
Was is it hard for you to see
Without a care for me?
It takes sometime to embrace the cold
Until then I'm just a hollow man
A hollow man, a hollow man, a hollow man
What have I become?
The shadow of the sun?
So was it hard for you to go?
Did I fail to let you know
That you are the one I needed most?
Was is it hard for you to leave
Without a care for me?
It takes sometime to embrace the cold
Until then I'm just a hollow man
A hollow man, a hollow man, a hollow man
