

# Sex Changes

## The Dresden Dolls

Dear Mr. and or Mrs. sender  
We're pleased to inform you that your application's been accepted  
Starting from the time you get this letter  
Your life will be one never-ending "hope you're feeling better"  
You get your choice of an aesthetic  
Ah we need to chop your clock off tick tock, tick tock, tick tock, tick tock  
It might not be what you expected  
There is no money back once you've been ripped off, ripped off, ripped off  
Today's a very special day  
The boys'll murder for it but what will the neighbors say?  
It leaves you feeling pretty hollow it might be nice to look at  
Don't forget you're stuck with it tomorrow and tomorrow and tomorrow  
You're big enough to stop pretending  
You'll start to really show it in a week or so  
So don't go saying it's just come to your attention  
You'll get more than you're asking for without the right protection  
Today's a very special day  
And how you'd love to have a little thing with which to play  
But love wont get you very far, today be still your beating heart  
You'll have to keep on feeding it tomorrow and tomorrow and tomorrow  
Tomorrow and tomorrow and tomorrow  
Boys will be boys, will be boys, will be boys, will be boys  
  
Will be boys, will be girls with no warning  
Girls will be girls, will be guys, will be boys that don't cry over toys  
That they use to beat girls they despise by the morning  
They always said that sex would change you  
Change you, change you, change you  
No second thoughts the knife is nearing  
You'll never hear the little pitter patter pitter patter  
Of this little feat of engineering  
Of course I love you and of course it's what's inside that matters  
But I think the whole charade is ending  
It seems to me to be the only way to keep from getting  
Caught up in a long life of regretting  
The doctors say that once you get a taste for it should keep on cutting  
But while you happen to be here  
Why don't you whisper all those sweet forevers in my ear?  
Stiff upper lip in all this sorrow, hurry up and stick it in

You never know when it will end tomorrow, tomorrow, tomorrow  
Tomorrow, tomorrow, tomorrow, tomorrow, tomorrow, tomorrow  
Tomorrow and tomorrow and tomorrow and tomorrow  
They always said that sex would change you  
Change you, change you, change you
