Nine O'Clock

Seth MacFarlane

She said Nine o'clock
She said Nine o'clock
Can I just keep breathing
'Til Nine o'clock
Little heart, will you please hold together
'Til she's here, standing near, againThen at Nine o'clock
We may see a sight
Like the world's first rainbow to glow at night
And if we get a kiss just then
We'll see miracles from Nine to TenShe said...
Nine o'clock
She said...
Nine o'clock
Can I just keep on breathing until nine o'clock
Little heart won't you please hold together
Until she's here, standing so near againBecause at Nine o'clock
We may see a sight
Like the world's first rainbow
To glow at night
And if we get a kiss just then
Oh we'll see miracles, from nine to ten
