

This Is My Hit

Kyprios

Oh, no, no, well, I don't know
Oh, yes, oh, yes, it's so easy
Buck naked on a train of thoughtlessness
I often hit the crossroads
Meet me in my stream of consciousness
All flows, get the business men out they offices
Artifice is in the air, artistry is in despair
Sicker than an AIDS patient having chemotherapy
And a cardiac arrest, cognac it's the best drink
To make you think you're sick when you only got the sniffles
If and when you hear a record, do you get the riddle?
The industry doesn't want you educated, they'd rather have a hit and a
Fashion statement
Fascism seems to be the only way to reach
The youth today so shut up as I speak
This is my hook
This is my chorus
This is my hit
It's better than yours
This is my hook
This is my chorus
This is my hit
It's better than yours
Music, music, music, music
Music is a hook a catchy beat and a look
A genre, that is on you for a minute till you're took
There's Britney, Christina, Many, NSYNC
Backstreet and Ninety Degrees, it makes you think
Maybe, I'm the next Eminem in the labels eyes
And I'm a make some money off the Slim Shady Enterprise
Enter the ability to steal from the industry
Start a war so Kyprios can gain publicity
No, I ain't goin' out like that see I gotta be original and an individual
This is my hook
This is my chorus
This is my hit
It's better than yours
This is my hook
This is my chorus

This is my hit
It's better than yours
Freestyle Fellowship, Gil Scott, Jill Scott, Organized Konfusion
Black Star Movement, Swollen Members, Living Legends
Sweatshop Union, De La Soul, Common Sense, Tribe Called Quest
Crash Crew, Sugar Hill, Sauks, Kardi, K-os
And to the rest of the dopeness who don't take payoffs
What happened to KRS-1s philosophy?
When did hip hop become hypocrisy?
Consuming flock of sheep, that's society
We need to change our media immediately
They breathing shallow words, you gonna swallow what you heard?
Who's leading the leaders, who follows followers?
The world is a pitch for corporate advertising
My thoughts ain't a bitch, switchin' to commercializing
Sky is falling, the earth is erupting
Don't believe everything you hear kid trust me
Analyze, got a question ask it
Or be a market pitch for a specific demographic
Fourteen and girl, you're the number one target in the world
Question even me gonna believe a catchy hook?
Have I got substance?
I don't know, take a look
This is my hook
This is my chorus
This is my hit
It's better than yours
This is my hook
This is my chorus
This is my hit
It's better than yours
