

Save My Life

[Xandria](#)

Advisory - the following lyrics contain explicit language:

My soul feels empty
I'm drowning in my tears
It's pain I'm learning
My heart is aching
Got poison in my veins
In hell, I'm burning Save my life, save my life
Let these tears be our secret
You and I, you and I
Once we were so close, save my life It's all or nothing
I'm asking you to give
Let live or die
Everything is better
Than this silent lie
Say that it's no lie Save my life, save my life
Let these tears be our secret
You and I, you and I
Once we were so close, save my life I need you to save my life Save my life, save my life
Let these tears be our secret
You and I, you and I
Once we were so close, save my life Save my life, save my life
Let me feel you breathing
In your hands, in your hands
Is the heart of mine, save my life
