## Mr Disco

## **New Order**

How can I ever forget you
You don't know just what I've been through
The holiday we spent together
Lives with me now and foreverI tried but I can't find you
Tell me now what do I do
I tried but I can't find you
Tell me now what do I doI can't find my piece of mind
Because I need you with me all of the time
I used to think about you night and day
I used to feel what language cannot say

Oh I can't find you

No I can't find my piece of mind without youMaybe you'd write me a letter

And tell me why I never met you

Our rendezvous just ended in sorrow

Without you there's no tomorrowI tried but I can't find you

Tell me now what do I do

I tried but I can't find you

Tell me now what do I doI can't find my piece of mind

Because I need you with me all of the time

I used to think about you night and day

I didn't care what other people would say

Oh I can't find you

No I can't find my piece of mind without youI can't find my piece of mind

Because I need you with me all of the time

I used to think about you night and day

I used to feel what language cannot say

Oh I can't find you

No I can't find my piece of mind without youIbiza, majorca, and benidorm too I've searched all these places but never found you
