Price You Pay

Agnostic Front

No one can tell me just why it is
That it always has to come to thisFix it up
Throw it away
I don't get it
The price you payTheres no sense no matter what you say
What sticks inside ain't gonna fade awayFix it up
Throw it away
I don't care
It's the price you payI'm fallin away
I'm fallin away
I'm fallin away
I'm fallin away(can't make out this next part, but i think it's:
You say don't pay
You say don't pay)Too high
Too lowI'm fallin away
I'm fallin away
I'm fallin away
I'm fallin away(Again, can't quite tell, but this time it sounds a lot more like:
You say don't pay
You say don't pay
You say don't pay
You say don't pay)(fading out)
Fallin away
Fallin away
Fallin away
Fallin away
Fallin away
Fallin away
Fallin away
Fallin away
