

# 5 On a Joyride

Cody ChesnuTT

Sitting here thinking about yesterday  
How we shared a laugh and played  
How we celebrated oh my good news  
Just me and you  
Mmmm uuuuuBlack boy sits behind the cage  
Among so many friends end of days  
His true purpose is to show the world  
Its truce to his big ideas  
And sigh dont say another word  
He says and smileCome along for the ride  
1,2,3,4,5 so many friends  
Come along for the rideLaughter you can bring  
Say the first thing on your mind  
And feel so satisfiedCome along for the ride  
..on a joyrideFridays giving birth to Saturday  
And Sundays left behind weve sin  
Weve been born again on our way to there  
If we ever make it there  
So many pretty lights in my eyesCome along for the ride  
1,2,3,4,5 so many friends  
Come along for the rideDo the waking just before  
the singer and the big man  
becomes historyCome along for the ride  
Come along for the ride  
Come along on a joyride
