Bad By Myself

Tlc

Yo, get, get up on the TLC tip
Yo, get, get up on the TLC tip
Yo, get, get up on the TLC tip
Yo, get, get up on the TLC tip
Hey now
You know how to pull my chain
And I believe every word you say
But now it's time we must say goodbye
Baby I'm leaving so don't you cry
I tried to make things work
But now you're gone and your heart got hurt
Well you thought I belong to you
But you were wrong so now what you gonna do?
I can do bad by myself
I'll be bad by my damn self
I can do bad by myself
Yo you done it before and I can do it again
Show don't need you to be my man
Don't come bangin' on my door
Now you're gone I don't want anymore
There's no reason for you to come around
So just step off so I don't have to break it down
I know what I'm doin' now
You think you're gonna change my mind somehow
You cheated me now I'm cheatin' back
I run the show and you can kiss my
You know the rest
Your left eye, what it is?
My soda crack oh! My ackro back oh! The T to the B to the O to
The Z and C H I with the double L I, L E F T E Y E eye E I E I O
So you, how's your life?
I was givin' a niggah a piece of time
But my time can't be wasted on B S
So nevermind
I can do bad by myself
I'll be bad by my damn self
I can do bad by myself
And you done it before and I can do it again
Show don't need you to be my man

You know, I can do bad all by myself
My show don't need you and anyone else
I ain't gonna be a fool no more
Better take that mess on out the door
Tried to ruin my world
Tried to ruin my life
Must be crazy thinkin' I'm your wife
And you done it before and I can do it again
Sho' don't need you to be my man
Yep, yep hey get get, get up on the TLC tip

And you done it before and I can do it again

Peter Piper wants to pick ya know a peck of those pickled
Peppers gave his girly little Shirley half a peck
He could've kept her but instead the picklehead
Was kicked out the waterbed
And greedy Petey now is needy 'cause not one was all that he left her
I'm sayin' it once and not twice
Givin' advice to be nice before you fall through the ice
'Cause lately you been slippin' up a lot
Not even givin' half o' what you got
But it's about that time you gave a quarter for a dime
Shovel up and start diggin' to see what you can find
Zero then take a trip to your closet and come forth with
That security deposit
So like it or leave it but until I receive it
I'll be leavin' my deposit elsewhere you best believe it
And that way we can both take a trip
On the TLC tip
Now that's the one
