

Dark Waltz

[Hayley Westenra](#)

We are the lucky ones
We shine like a thousand suns
When all of the color runs together I'll keep you company
In one glorious harmony
Waltzing with destiny forever Dance me into the night
Underneath the moon shining so bright
Turning me into the light Time dancers whirling past
I gaze through the looking glass
And feel just beyond my grasp is heaven Sacred geometry
Where movement is poetry
Visions of you and me forever Dance me into the night
Underneath the moon shining so bright
Turning me into the light Dance me into the night
Underneath the moon shining so bright Let the dark waltz begin
Oh let me wheel, let me spin
Let it take me again
Turning me into the light
