

# Washington Work Song

## Disappear Fear

1 2 3 4  
There's blood on the sidewalk  
From someone I don't know  
I step around it  
So I won't get it on my shoe  
On my way to work in Washington  
On my way to work in Washington  
On my way to work in Washington, DC  
My name is America, but I pronounced it George  
Some people think I'm rich  
But I am mostly poor  
And I cover it up to get you to fight in my war  
The truth is  
I am my own enemy  
But I'll buy anything  
You advertise on TV  
On my way to work in Washington  
On my way to work in Washington  
On my way to work in Washington, DC  
Gotta make it look good  
Gotta make it look good  
Gotta make it look good  
Every Friday, Karen and Katy  
Go to take care of babies with aids  
Who were born like their mothers  
Addicted to crack  
Drinking their bottles  
Lying on their backs  
Just like their fathers  
Mom ain't coming back  
On my way to work in Washington  
On my way to work in Washington  
On my way to work in Washington, DC  
Gotta make it look good  
There's blood on the sidewalk  
From someone I might know  
Should I step around it  
So I won't get it on my soul  
On my way to work in Washington  
On my way to work in Washington  
On my way to work in Washington, DC  
Gotta make it look good  
Gotta make it look good  
Gotta make it look good
