

The Catch

Sonder

Once upon a time
When the night was feeling quite alright
You climbed into a tree

Branches made a sound
And you fell into the ground so light
You barely scraped your knee

Anytime at all
I will catch your fall
But here's the catch you've got to call
If your back's against the wall
And I'll be there anytime at all

Once upon a time
When the grass was growing high
You blew into a blade

But it didn't make a sound
Instead it cut you down
With a prick across your lips

Anytime at all
I will catch your fall
But here's the catch you've got to call
If your back's against the wall
And I'll be there anytime at all

Once upon a time
You weren't a friend of mine
You we're caught in a bind
But never off my mind

If we never talked again
If we never walked as friends
I believe it is
Simply what it is

Anytime at all
I will catch your fall

But here's the catch you've got to call

If your back's against the wall

And I'll be there anytime at all

And I'll be there anytime at all

And I'll be there anytime at all

And I'll be there anytime at all

And I'll be there anytime at all
