Effervescence

Nero

Pull the pin on your thirst as you taste it's
Sour cream stain on your dress
You could clean up your life with a toothbrush
And fail the chalk / blue-ink test
Will you take me aboard for the long haul?
Play your cards close to your chestEffervescence
Saps your patience

Threatens every single thing I doScene twoPack your bags with an eye on the front door

Leave the clothes that cloud up your mind

Call a cab with a fifty cent flag-fall

You're paying for a driver this time

Complicate everything with a sentence

Leaving only left me benignEffervescence

Saps your patience

Threatens every single thing I do

Every single thing I do

Every single thing I do

Every single thing I.... do

Do... Do... YeahPack your bags with an eye on the front door

Leaving only left me benign

Pack your bags with an eye on the front door

Leaving only left me benign
